Development Tools: Git/GitHub, Docker, Supabase, n8n
Extra: Content Creation, Video Editing

Certifications

- [SAP Certified Associate – Back-End Developer – ABAP Cloud](#)
Received on July 15, 2025

Projects

Peace Pulse | Mental Health Chatbot and Analyser

[Link](#)

Tech Stack: React, API Integration

- Built this project for the Google Gen AI Hackathon.
- Helps the user to cope up temporarily with their mental health by providing them analysis of their mental health and suggest them some tasks to make their mental health better.

FileInsight | VS Code Extension for Codebase Context

[Link](#)

Tech Stack: TypeScript, Node.js, VS Code Extension API

- Built and published a VS Code extension to the official marketplace that provides instant dependency context, file role classification, and code complexity metrics on hover.
- Implements static analysis across workspace files to generate a dependency graph, cyclomatic complexity estimates, and LOC counters — without opening the file.
